## PRESIDENT'S WELCOME MESSAGE

I am pleased to welcome you to the Saudi Arabian Society for Metabolic and Bariatric Surgery (SASMBS), 6th Annual Conference of SASMBS 2023 which will be held at Crowne Plaza - RDC Hotel & Convention Center, Riyadh, Kingdom of Saudi Arabia from 14 to 16 February 2023.

The science of obesity and metabolic bariatric surgery is evolving at a very rapid rate. In SASMBS 2023, we work together with sister societies (IFSO MENAC, GOSS and PASMBS) to bring and present the most recent advances. We will cover all topics for which you have questions in both Metabolic Bariatric Surgery, Obesity Medicine, GERD, Hernia, Endobariatric, Metabolic and other major topics.

On top of that, we have prepared a very nice social program that will make your visit to Riyadh memorable.

I look forward to welcoming you in person in our annual conference.

### Prof. Aayed Alqahtani, FRCS, FACS

President of Saudi Arabian Society of Metabolic and Bariatric Surgery (SASMBS)

President of Gulf Obesity Surgery Society (GOSS)

Professor of Bariatric and MIS

## SCIENTIFIC COMMITTEE CHAIRMAN WELCOME MESSAGE

We are thrilled to welcome you to the 6th Annual Conference of the Saudi Arabian Society of Metabolic and Bariatric Surgery (SASMBS) in Riyadh. As the Chairman of the Scientific Committee, it is my honor to extend a warm greeting to our distinguished local, regional, and international guests, including speakers and attendees.

Our team has been dedicated to creating an informative and engaging scientific program that aligns with your expectations and serves to enhance your clinical practice. The program will feature a range of topics that are critical to addressing the global epidemic of obesity, and I look forward to discussing these important issues together.

As a medical community, it is our obligation to join forces in the fight against obesity. The rise of this condition is alarming and affects not just our country, but the entire world.

We look forward to your active participation in the SASMBS 2023 conference in Riyadh and to the valuable opportunities for learning and collaboration that await us.

### **Dr. Saeed Alsareii**

Chairman, Scientific Committee

Associate Professor, Department of Surgery, College of Medicine, Najran University  
Consultant, General and Bariatric Surgeon, Uiveristy Hospital, Najran University.

Vice Rector for Postgraduate and Research, Najran University

It with great honor and privilege to have this amazing collaboration with Saudia Arabia Society for Metabolic and Bariatric Surgery (SASMBS). On behalf of PASMBS, I would like to thank Professor Alqahtani, the organizing committee and the entire society for their generous invitation for us to host a PASMBS session during their annual congress in Riyadh.

The PASMBS session will cover the issues that come with distalization of Roux-en-Y gastric bypass from indications to complications and how we deal with them as bariatric surgeons and physicians, through three interesting videos of actual patient cases.

I look forward to everyone's attendance and participation to make this session and the entire congress a success.

### Dr. Ahmad Bashir, MD, FACS, FASMBS

President of the Pan-Arab Society for Metabolic and Bariatric Surgery (PASMBS)

Chair of Communication Committee of International Federation of Surgery for Obesity (IFSO)

Member-at-Large IFSO Middle East & North Africa Chapter

Middle East  
North Africa Chapter

## PRESIDENT'S WELCOME MESSAGE

Welcome to the 6th Annual Conference of the Saudi Arabian Society of Metabolic and Bariatric Surgery (SASMBS). As the President of the Middle East Chapter of the International Federation for the Study of Obesity (IFSO MENAC), I am honored to extend a warm welcome to all attendees.

Founded six years ago, IFSO MENAC serves as a hub for national bariatric surgery societies across the Middle East and North Africa, with SASMBS as a founding member, joined by societies from Egypt, Kuwait, the UAE, Jordan, Lebanon, Iraq and Pakistan.

With a strong presence in the region for more than two decades, SASMBS is renowned for hosting engaging conferences with rich scientific content and thought-provoking debates that shape the practice of metabolic bariatric surgery in the region and beyond.

Take advantage of this opportunity to connect with your peers, share knowledge, and be part of the advancement of metabolic bariatric surgery, endobariatrics, and pharmacotherapy in Saudi Arabia and the Middle East. And don't forget to experience the warm hospitality of Saudi Arabia.

**Dr. Khaled Gawdat, M.D.**

IFSO MENAC President

# The RIGHT CHOICE

*I've struggled with weight my whole life, I need your help with the only SFDA approved GLP1-RA that offers full weight management program.*

SARAH, consultant, Age: 35 BMI: 32  
Patient portrayal.  
BMI=body mass index  
SFDA=Saudi Food and Drug Administration.

Ask your patients about their weight, and explain how adding Saxenda to diet and exercise can help them lose weight, keep it off, and improve their overall health.

# Finally, a buttress that enables **seamless tissue manipulation**<sup>1</sup>

Experience the difference with  
**ECHELON ENDOPATH™ Staple Line Reinforcement**

**See it come to life with augmented reality:**

Scan the QR code with your iOS 13 iPhone or iPad camera to visit the website. Then tap the augmented reality (AR) icon to start the experience.

شركة النزهة الطبية (ذ.م.م)  
AL-Nozha Medical Co (W.L.L.)

Ideal Life Medical Co. is a leading medical devices provider that has been furnishing the Saudi market with cutting-edge medical technologies since 2010. We are in the business of improving people's lives, and we have succeeded in earning a primary position and a solid reputation as a trusted medical devices supplier that provides innovative healthcare solutions to its customers.

Bluesail Medical was established in Zibo, Shandong in 2002. It has now formed four major business divisions namely, health protection division, medical care division, cardiovascular & neurovascular division, and minimally invasive surgery division.

Bluesail Surgical is the minimally invasive surgery division of Bluesail Medical.

The product portfolio of Bluesail Surgical includes mainstream surgical instruments and surgical innovative therapy instruments that will revolutionise the current surgery operations. They are committed to the R&D and manufacturing of the world's leading medical technology and products for the well-being of patients as well as creating value for the society.
